# ABOUT GIMS

*Empowering Medical Education for Transformation*

**Affiliated to Atal Bihari Vajpayee Medical University, UP**

Government Institute of Medical Sciences (GIMS), Greater Noida, is an autonomous tertiary care institute established by the Government of Uttar Pradesh. The institute is committed to providing affordable healthcare services to all sections of society and aims to be a leader in professional medical education and multi-disciplinary research. The institute houses a 630-bedded hospital with modern infrastructure, advanced medical equipment, well-equipped laboratories, and a Skill Lab. The institute has started MBBS (2019), DNB (2020), College of Nursing (2021), and Paramedical School (2021) & has also commenced MD this year. There are approximately 1500-2000 patients visiting every day, and more than 500 patients are admitted in the hospital. GIMS caters to a 60-bedded ICU and a 30-bedded Emergency.

## GIMS VIDYA SETU

In line with its mission to build a competent healthcare workforce, GIMS has established GIMS VIDYA SETU (Skill, Education and Training Unit). This unit embodies the institute's ethos by offering structured skill development programs focusing healthcare professionals and young aspiring youth.

## COURSE DESCRIPTION

Emergency Medical Technician (EMT) in the Healthcare Industry is also known as a lifesaver or paramedic. Individuals at this job need to provide emergency medical support and care to individuals who are critically ill or injured and transport them to a medical facility within stipulated time limits.

### Training Outcomes

Demonstrate knowledge about the healthcare sector and emergency medical care services

Demonstrate the ability to perform clinical skills essential in providing basic emergency medical care services such as urgent need to respond the emergency calls, assurance of scene safety, precision to call other emergency people, handling different emergency scenarios from clinical emergency to trauma emergency to mass casualty to disaster management, etc.

Demonstrate setting of an ambulance for dealing with emergency situations

Practice infection control measures

Demonstrate safe and efficient transferring and ambulation techniques
